

Dear [],

You are invited to participate in a study conducted by the Research Shop, part of the Community Engaged Scholarship Institute, at the University of Guelph. This study is in partnership with, and at the request of, the Perinatal Mental Health Coalition in the Waterloo Region.

The purpose of this study is to understand the prevalence and use of perinatal mental health screening tools in the Waterloo region. We are currently seeking health practitioners who work with expecting and new parents to participate in a 3–5-minute Qualtrics survey. The decision to participate in this study is completely voluntary. Declining to participate will not affect your relationship with the University of Guelph or the Perinatal Mental Health Coalition in any way.

If you would like to participate in the study, please fill out this Qualtrics Survey here or using the QR Code below: https://uoguelph.eu.qualtrics.com/jfe/form/SV_b1V7GtKEwQa4MiG. Note that your information will be anonymous, and only the research team will have access to your data.

If you have any questions, or would prefer to fill out the survey with the help of a researcher, you may contact the Project Manager, Julia Linares-Roake at linaresj@uoguelph.ca

Thank you for your time.

Sincerely,

[]
